

# WEST GOSHEN TOWNSHIP'S SUMMER PHOTOGRAPHY CAMP

## General Camp Information

These camp will focus on the basics of photography for kids & teens. They will learn the basics that every photographer needs to know to capture great images. Including how to use the camera and rules of composition. Then we allow every child to explore their creative side and capture their unique perspectives that only kids seem to find and that we adults only wish we could. At the end of the camp each child will come away with the confidence to capture the world with their photographs in a meaningful and beautify way. Daily activities are fun and designed to teach different aspect of photography.

For the last hour of the last day of camp, your children will host an Open Gallery and award will be handed out. During this open gallery every camper will have several of their top images printed and on display. We encourage parents, family and friends to attend the open gallery to honor your child's achievements. Light refreshments will be served.

Camps 1 & 2 will have a day dedicated to People and Street photography and a day dedicated to Summer Fun photography.

Camps 3 & 4 will have a day dedicated to Action/Sports photography and a day dedicated to Nature/Landscape photography.

- All camps are taught by international award winning professtional photographers.
- We will provide DLSR cameras for the campers to use during each camp. Several campers will share each camera. However, if you chaild already has a DSLR camera we encourage them to use it.
- Additionally, during the last day of each week we will teach campers how to use their Smart Phone/ iPhone camera go get great images. All the concepts they lear with a DSLR camera will significantly improve their Smart Phone/iPhone photograpny.
