The following summarizes recent activities performed on behalf of the West Goshen Sewer Authority (WGSA) for developer activities within the sanitary sewer service area:

Jerrehian Estate-Large Tract-Woodlands at Greystone-#126

We have reviewed the financial security for the mechanical components of Pump Stations A and B and provided comments back to the Developer and Township for consideration. We continue to provide on-site observation for the pump stations as work continues.

825 Goshen Road-#205

No activity in April 2019.

Islamic Society- #245

No activity in April 2019.

Bush Automotive Collision - 966 South Matlack Street - #250

No activity in April 2019.

Glenn White - 901 Shiloh Road - #254

We have reviewed construction submittals and provided responses back to the Developer and completed the coordination with the on-site inspectors, being provided by Carrol Engineering Corporation.

Luxor Apartments – 956 S. Matlack Street - #254

We have reviewed the planning module exemption request for 14,500 gallons per day and recommended approval. The redevelopment is tributary to a gravity sewer main that enters the wastewater treatment plant on the west side and is not tributary to any pump stations.
